Diego Mantegazza

Web Designer

EXPERIENCES

November 2022 - Today

Freelance Web Designer   `Web Development` `UI/UX Design` `SEO`

I am involved in developing personal or corporate websites through various technologies, preferring standard development through code. I take care of the complete development of sites, from design to development and deployment.

June 2017 | Trezzo Sull'Adda (MI)

Mantegazza Srl   `IT System Engineering` `Stage`

The internship activity was mainly for upgrading the network infrastructure by installing various devices (Firewall with VPN, Virtualized Servers, video surveillance system), configuring a domain and upgrading obsolete network systems.

January 2017 | Pontirolo Nuovo (BG)

Siac Spa   `IT System Engineering` `Web Development` `Stage`

In this experience, I was responsible for developing a web infrastructure (HTML/CSS/JS) for IT support of company staff. In addition, I also participated in the analysis of the network infrastructure for its improvement. With the other interns, I was engaged in general IT support to the corporate staff.

June 2016 | Stezzano (BG)

Project Informatica   `IT System Engineering` `Stage`

I have participated in general computer network maintenance/implementation activities such as installation of servers (Windows Server) and backup servers (Veeam), server virtualization (ESXi), configuration of domains on Windows Servers and configuration of network infrastructure (AP, firewall, router).
